# OUR PATIENT AND LIAISON SERVICES ARE HERE TO HELP

There is hope for pancreatic cancer patients and it starts with knowing your options.

**THE PANCREATIC CANCER ACTION NETWORK'S Patient and Liaison Services (PALS)** are here to help, providing comprehensive, free call-in services to pancreatic cancer patients, their families and medical teams.

## A SOURCE OF CARING SUPPORT

When you call PALS, you'll establish a one-on-one connection with a dedicated PALS Associate. Your PALS Associate can provide you with the most current information about the disease, treatment options, specialists, clinical trials, support groups, diet, nutrition and much more.

## GAIN A TRUSTED ASSOCIATE

Contact your PALS Associate as many times as necessary to get all the information you need throughout your treatment. You'll speak to the same associate each time you call, so you can continue the conversation. Your relationship and the information you share with your PALS Associate are private and confidential.

## LEARN ABOUT THE LATEST CLINICAL TRIALS

It is vital to receive accurate and current information about clinical trials before making other treatment decisions. Your PALS Associate can perform a customized search of the PALS pancreatic cancer clinical trials database, which is updated and verified monthly. This allows you to take your personalized search results to your doctor to discuss all your treatment options.

## CONNECT WITH OTHERS

Talk to someone who has been through it. Your PALS Associate can match you with a volunteer in the Survivor and Caregiver Network. You can connect by phone or email to share experiences, ask questions and get support.

## GET THE KNOWLEDGE YOU NEED

Our library offers educational booklets and fact sheets on more than forty topics related to pancreatic cancer. All have been reviewed for accuracy by scientific and medical experts in pancreatic cancer—and all are available free of charge. PALS also presents the Symposium Series of educational seminars for patients and families in cities throughout the United States.

## AN ORGANIZATION YOU CAN TRUST

PALS is part of the nonprofit Pancreatic Cancer Action Network, a nationwide network of people dedicated to creating hope for those afflicted with pancreatic cancer. We fund private research and advocate for federal research funding, provide patients and caregivers with reliable information to make informed decisions, and help people work together to raise awareness and funds to find a cure for pancreatic cancer.
